

Wellness Department: Vitamins & Supplements

Sawall Health Foods began with F.A. Sawall, a bio-chemist from Detroit, selling powdered minerals door to door. Today, Sawall's carries over 5,000 high quality, all natural and organic dietary supplements, including vitamins, minerals, homeopathics, herbal supplements, natural remedies, children's vitamins, superfoods, functional foods and protein supplements.

Don't see a product we carry? Ask one of our team members if we can special order what you need.

At Sawall's you may find hundreds of products on sale every day and if you purchase over \$100 worth of vitamins or supplements, you will receive a 20% discount on all your non-sale supplements.
